Local Authority Governor	– 04/04/21	Performance Finance and General Purposes			1/3				

Governors must declare any relevant business interests as well as the details of any other educational establishments they govern. The register must also set out any relationships between governors and members of the school staff including spouses, partners and relatives. It is important to address any perception of a conflict of interest by making clear where such potential personal or pecuniary interests might apply; this might be a conflict between personal interests and the interests of the school or Council when dealing with outside organisations or individuals.

Note 1 – Pecuniary Interest include current employment, businesses (of which partner / proprietor), company directorship, charity trusteeship and any other conflict.

Note 2 – Personal Interests can also include business involvement / company directorship or trusteeships or family or close connections to the governor (for example a company the school might have contracts with).

Examples (potential conflicts):

- A governor whose spouse/partner is employed by the school – *Should not take part in discussion regarding the school's pay policy or any staffing matter that might impact on their partner. Both direct and indirect decisions might impact on the salary range of senior staff e.g. increasing pupil numbers*
- A governor involved with any committee group, business or after school club who hire part of the school – *should not be party to discussion involving the use of the school or their charging policy.*
- A governor who is a supplier of goods or services to the school – *Should not take part in decisions regarding the letting of contracts for that type of goods or services or where a sub-contract relationship might exist.*
